

winter buds and picturesque branch structure complete the list of qualities that make the pest-free Lavelle Hawthorn desirable for street planting.

#### GINGO BILOBA -- MAIDENHAIR TREE

Height-----50 - 70 feet

Spread-----30 - 40 feet

Form-----Irregular

Texture-----Medium

The spreading and irregular branches of the Ginkgo have dull green fan shaped leathery leaves which turn to a beautiful yellow in autumn. The male Ginkgo is preferred to ornamental plantings due to the ill-smelling green fruits dropped by the females in late summer. The Ginkgo is noted for its open habit of growth, brilliant yellow fall coloring, ability to grow well under any conditions and immunity to disease and insects.
